

TERRAZZO

THE
HIGH-TECH
SOLUTION
FOR
JOINTLESS,
POLISHED
CAST FLOORS.

The floating cassette ensures dimensionally stable floors, eliminating the need for the need for expansion joints. TERRAZZO delivers an immaculate appearance to achieve the highest design standards.

- Seamless integration into terrazzo and visible screed surfaces
- Decoupled system prevents transmission of footfall sound
- Suitable for all types of cast floors

OBO
BETTERMANN

The advantages of OBO cassettes at a glance:

Aesthetic & virtually invisible

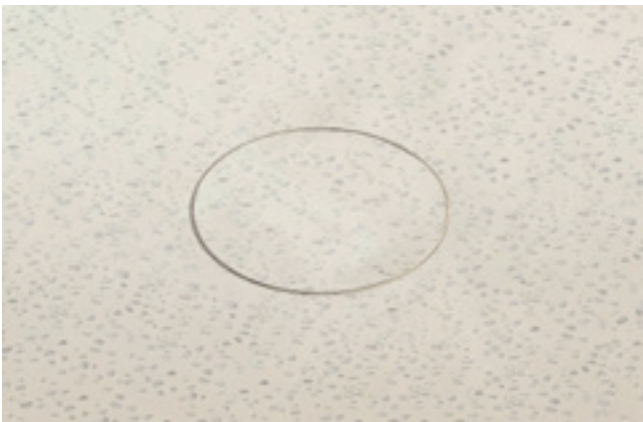

- Seamless integration into terrazzo and visible screed surfaces
- No expansion joints, resulting in a harmonious appearance
- Minimally visible stainless steel edge – perfect for high-quality architecture
- Round and square designs

Sophisticated technology

- Decoupled system prevents transmission of footfall sound
- Floating cassette body adapts to screed movements

Maximum flexibility

- Adjustable systems for different structure heights
- Suitable for all screed types and heated floors
- Modular for up to 12 Modul45 devices or 9 devices with 50 mm central plate

High level of planning security

- No expansion joint necessary
- Easy integration into sophisticated construction projects
- Complete system for efficient implementation
- 510 kg load-bearing capacity for point loads, alternative system available for loads over 510 kg

OBO cassettes for polished screeds

Seamless integration for the highest of design standards

Seamless floor areas such as Terrazzo or polished visible screed represent modern architecture, clean lines and lasting quality. With the cassette solutions from OBO Bettermann access points to the electrical infrastructure can be integrated virtually invisibly into these premium floor concepts – without compromising on functionality or technology.

The OBO cassettes for polished screeds combine technological innovation with architectural freedom. They enable the seamless, aesthetic integration of electrical installations – which is ideal for modern construction projects with the highest of design standards.

Square cassettes for jointless floors

Type	Version for	Item no.
TRKN 9 VS 250	Blank	7409601
